

# THE SAFER WEIGH

WIM Tech provides the latest in vehicle weighing technology for your caravan, motorhome, tradie trailer, boat, float or truck.

*to travel*

## Did you know that overweight caravans and tow vehicles:

- Are classed as unroadworthy
- May not be covered by your insurance
- Impact steering and braking and can lead to serious accidents
- Increases the risk of the dreaded 'caravan sway'
- Increase wear and tear to vehicles and roadways.

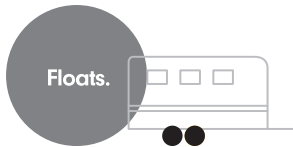

# ON YOUR WEIGH

With our Weigh In Motion (WIM) technology, we'll have you weighed and on the road quickly and accurately.

*in no time*

- We provide caravan and tow vehicle weight compliance checks.
- As the name suggests, we Weigh In Motion, so there's no need to stop on a static bridge.
- We provide a quick and affordable mobile service and provide expert tips on site.
- We'll help you comply with vehicle weight limits and national compliance requirements.
- We offer additional expert advice to keep you and your family safe on your travels.
- We explain weight terms such as GVM, GTM, TBM and what they mean for your vehicle.
